

MINI MYO, A NEW VISION TO DISCOVER

Myopia management lenses

MVISION

Mini
Myo

OUR MAIN GOAL IS TO SAVE YOUR VISION...

Myopia has become a true health emergency. In fact, in recent years, cases of myopia have not stopped increasing

Right now, **30% of the world population** suffers from Myopia

In **2050** this number is expected to **rise to 50%**

BENEFITS

- ✓ It manages myopia
- ✓ It can slow down myopia progression
- ✓ Improved quality of life
- ✓ Great acceptance and easy adaptation
- ✓ Very safe and minimally invasive lenses

Only the best for your child

Mini Myo is a state-of-the-art lens that combines experience, research, and technology to manage myopia and slow down its progression among patients.

Mini Myo is for you if

You want to halt the progression of myopia, preventing potential issues for your child like high myopia or myopic maculopathy.

Why Mini Myo and not others?

	Unique and innovative design
	Technologically advanced lens
	Supported by a year-long Europe based study*
	Is both comfortable for your child and treats their Myopia
	For all types of wearers

*Double-blind study carried out in Europe showed a 39% decrease in ocular elongation growth after 12 months of wearing Mini Myo compared to when wearing a standard single vision lense

Taylor is 8-years-old.

During the week she goes to school, her sport classes and sometimes she plays with her friends on the console. She has always been a very quiet girl, although for some time now she has been complaining about eyesight not being so great.

Does this sound familiar?
